

TOPICS CA EXAM

You can bring 2 A4 Pages with you. And also a Calculator.

Cheat Sheet

- Clean main function with every structure you could need. C and ASM
- Trivia Facts from Lecture Slides
- After Interrupt Stack
- Register Description (Port H, Port B, ...)
- Every Arm Command from the Lecture Slides
- Arm Trivia Facts
- Variables. How do Define and assign. D(C,S).(B,W,L) *
- Predicate Table (4bit)
- CCR Register
- Logical and Bitwise Operators

Trivia Questions (25-35)

- Name Upsides/Downsides => Can be done with your personal Opinions
- Mostly about Architecture/Microcontrollers/Lecture Slides

HCS12 Programmierung (25-35)

- Programmanalyse / Program Analysis
- Addressierungsarten / Addressing Modes
- Stack. How the Stack works. How Functions use the Stack. Interrupts work with Stack.
- CPU Instructions by Hand. LDD [val1, X]
- Interrupts (RTI, Timer, PWM, SCSI,ADC)

C (25-35)

- Stack. How does the Stack work with C-Functions.
- Logical and Bitwise Operators

ARM Assembly (5-15)

- Every Arm Command from the Lecture Slides
- Predicate Table (4bits)
